Introducing No5 Chambers

No5
CHAMBERS

WELCOME TO No5 CHAMBERS

Throughout our 100 year history, we have established a reputation for breaking new ground and continue to be regarded as a progressive and forward-thinking set, maintaining our success in traditional sectors of law whilst offering specialist advice and representation at the cutting edge of newly evolving areas.

With offices in Birmingham, London, Bristol and the East Midlands we are well placed to provide expertise at all levels throughout the UK and overseas.

We are one of the largest sets of barristers' chambers in the UK with over 240 members including 29 Queens Counsel.

Our growth and reputation can be attributed to a structured recruitment process, with quality of tenants rather than quantity at its core.

Our forward-thinking approach and flexibility to change to market needs has enabled us to attract well-known and respected professionals to the Bar, including partners from leading solicitors firms and senior members of other professions, for example; a former neuro surgeon, dentist, doctors, engineers and members of the armed forces, all of whom have brought new skills to the respective groups they have joined.

We are able to accept work on a public access basis and have invested a great deal of time and resources to ensure that our services are easily accessible to the general public, offering clients direct and immediate access to the wealth of expertise offered by our members.
