Why join the West Midlands Employment Law Group?

In a nutshell:

Who? Open to anyone who works in (either fully or partially) or has an interest in Employment Law.

What? A group that is completely free, providing a forum to undertake training, share ideas, and have an impact in the West Midlands.

Where? A variety of venues, all easily accessible across the West Midlands.

When? Quarterly seminars (with free attendance), bi-annual social events, fund raising events to promote and support local charities.

Why? A small group of local Employment lawyers saw a genuine need for a group that builds the identity of the West Midlands Employment Law community and provides a support network across the Circuit.

Our aim is three-fold:

- To grow an organisation that offers practical, bespoke, sound training from experts;
- To nurture working and social networks amongst people with a common interest;
- To create a member-led body, of benefit not only to its members, but also to the region.
